

File No.: 09/3679-4

Mine Manager  
Tahmoor Colliery  
PO Box 100  
TAHMOOR NSW 2573

Dear Sir,

**Re: Tahmoor Colliery Longwall Panel 26 - Subsidence Monitoring Programme**

I refer to Tahmoor Colliery's proposed subsidence monitoring programme for Longwall Panel 26, as per the following documents:

- (i) "Tahmoor Colliery Subsidence Monitoring Programme for the Extraction of Longwall 26" Revision A dated March 2011, received by e-mail on 14 March 2011;
- (ii) "Specifications for Subsidence Monitoring Lines for Longwalls 25 and 26" dated 11 March 2011, received by e-mail on 16 March 2011;
- (iii) Plan (Drawing No. MSEC446-00-03) Revision D dated 9 March 2011, received by e-mail on 16 March 2011.

Pursuant to Condition 12 of Executive Director's SMP Approval of Longwall Panel 26 (File No. 09/3679-4, dated 2 March 2011), the subsidence monitoring programme is approved on an interim basis.

This approval will cease to have force and effect when the extraction length of Longwall Panel 26 reaches 150 metres.

Yours faithfully,

Dr Gang Li  
Principal Subsidence Engineer

23 March 2011
