File No.: 09/3679-4

Mine Manager  
Tahmoor Colliery  
PO Box 100  
TAHMOOR NSW 2573

Dear Sir,

### **Re: Tahmoor Colliery Longwall Panel 26 – Extension of PSE Subsidence Monitoring Programme Approval**

I refer to:

- (i) Tahmoor Colliery's subsidence monitoring programme for Longwall Panel 26, as approved on an interim basis by the Principal Subsidence Engineer (PSE) on 21 April 2011;
- (ii) Letter titled "Request to Extend Monitoring Plan Approval as per Condition" from Community Coordinator, Tahmoor Colliery dated 28 June 2011. The letter requests an interim monitoring plan approval for the extraction of the next 150 metres of Tahmoor Colliery Longwall Panel 26.

Pursuant to Condition 12 of Executive Director's SMP Approval of Longwall Panel 26 (File No. 09/3679-4, dated 2 March 2011), the subsidence monitoring programme (ref. (i) above) is approved on an interim basis.

This approval will cease to have force and effect when the extraction length of Longwall Panel 26 reaches 650 metres.

Yours faithfully,

Dr Gang Li  
Principal Subsidence Engineer

29 June 2011
