July 2023 | Newsletter 6

## Longwall South 1A mining completed

Tahmoor Coking Coal commenced mining of Longwall South 1A (LW S1A) on Tuesday 18 October 2022 and ceased extraction on **Tuesday 4 July 2023** at 1711m (see **Figure 1**).

Subsidence survey monitoring will continue for the next four weeks, followed by end of panel inspections by the geotechnical engineers and hydrology consultants.

Longwall South 2A (LW S2A) is scheduled to commence in late July 2023 and is due for completion in February 2024 (timing subject to operations).

LW S2A mining will start from the south-east end of the longwall and will progress in a north-west direction. As the longwall progresses, Tahmoor Coking Coal will be offering weekly precautionary visual inspections during the active subsidence periods for properties containing swimming pools and farm dams.

## Pre-Mining Inspections for Longwall South 4A

Pre-Mining Inspections (PMIs) and survey marker installations for properties located above Longwalls S3A and S4A are now being finalised. There are a few properties remaining to register for a PMI and survey marker installation. Please contact us as soon as possible so you don't miss out.

PMIs assist with a smooth claim assessment process should you need to lodge a claim for damage. Survey markers measure subsidence occurring at individual properties and help quantify movements if impacts occur.

Please phone Tahmoor Coking Coal on 02 4640 0025 or email [tahmoorenquiries@simecgfg.com](mailto:tahmoorenquiries@simecgfg.com) to book.

## Wollondilly Heritage Centre & Museum grant

Tahmoor Coking Coal recently provided a significant grant, through its Community Investment Program, to help upgrade the Wollondilly Heritage Centre BBQ area.

President of the Oaks Historical Society, Trish Hill thanked Tahmoor Coking Coal for its generous support to help provide the large decking area for visitors, the community and school groups.

*"Wollondilly Heritage Centre has become more than a heritage centre and museum particularly over the past few years," Trish said.*

*"We have become a real community hub by providing a place for the community to come and attend training, get-togethers and learn while sharing experiences and knowledge.*

*"The centre also has an extensive mining display proudly donated by retired miners and their families so we are so grateful Tahmoor Coking Coal recognises this and lends such generous support."*

# Tahmoor Coking Coal – Current Mine Plan

Figure 1 highlights the location of Longwalls S1A and S2A in yellow.

- The blue line (predicted 20mm Subsidence Area) indicates the area predicted to experience subsidence from LW S1A mining.
- The grey shading depicts the mined area of LW S1A which is now completed.

## TAHMOOR COKING COAL

## 20 24 APPRENTICESHIP PROGRAM

### SIMEC Tahmoor Coking Coal Operations

**Location:** Tahmoor , NSW

**Commencement:** January 2024

Our 4 year Apprenticeship Program will develop your skills, experience and knowledge, whilst providing you with opportunities and challenges to become a Qualified Tradesperson.

#### Trades:

- Electrical
- Mechanical

#### The Program

- Structured on-site workplace experience and TAFE training;
- Be mentored daily by experienced tradespersons and engineers;
- Take advantage of potential future career pathways.

#### Are You?

- Enthusiastic, Motivated, Committed;
- Safety Focused, Team Orientated, with Good Interpersonal Skills;
- Completed at least Year 10 by the end of 2023

#### Application to Include:

- Cover Letter – about you, reason for interest, trade preference & specify immediate family employed at Tahmoor Colliery;
- Resume – personal details, education/training, work experience & 2 referees;
- Last 2 years of results (School, TAFE or University);
- Extra-curricular achievements, community involvements/awards & qualifications.

Scan the QR code to submit an application.

**APPLICATIONS CLOSE**  
**30 July 2023**
