

Tahmoor South Mine Plan

Figure 2 outlines the longwalls and mining timeframes for Tahmoor South. Please note this is subject to change pending relevant approvals and operations.

The predicted 20mm Subsidence Area outlines the area that may be potentially impacted by subsidence from the mining of the longwalls. If you live within the predicted 20mm Subsidence Area (blue line in figure 2 below) please contact us to arrange a free pre-mining inspection.

The pink hashed line in figure 2 demonstrates the possible set back commencement location of LW3B and LW4B to avoid mining directly under Dog Trap Creek.
