Longwall South 3A mining completed

Tahmoor Coking Coal commenced mining of Longwall South 3A (LW S3A) on Wednesday 8 May 2024 and ceased extraction on 17 December 2024 at 1705.5m (see Figure 1).

Subsidence monitoring will continue for the next four weeks, followed by end of panel inspections by the geotechnical engineers and hydrology consultants.

Longwall South 4A (LW S4A) is scheduled to commence around February 2025 and is due for completion in September 2025 (timing subject to operations).

End of panel house surveys

For all residents with survey markers installed at your property and are located within the 20mm subsidence zone (the blue circle on Figure 1), we will be booking end of longwall panel subsidence surveys in January/February 2025.

This involves SMEC Australia surveyors visiting your property to survey the installed markers. You will receive a copy of the survey data for your records so you are aware of how much subsidence has occurred to date at your property.

Please contact Tahmoor Coking Coal to book your free house survey on 02 4640 0100 or email tahmoorenquiries@simecgfg.com.

Claiming for mine subsidence damage

If you think your property is damaged by mine subsidence you can lodge a claim for compensation with Subsidence Advisory NSW.

Visit www.nsw.gov.au/subsidence-advisory/claims for more information.

Please be advised claims will be placed on hold until active subsidence from current and future longwalls has settled.

If you experience a mine subsidence safety, security or serviceability concern, please phone Subsidence Advisory NSW **24-hour Emergency Hotline** on **1800 248 083** and they will coordinate a priority response.

If you have any concerns you can also contact Tahmoor Coking Coal on 1800 154 415 or email tahmoorenquiries@simecgfg.com.

As another busy year comes to an end, we thank you for your cooperation and patience during our mining operations in 2024.

Wishing you and your loved ones joy, gratitude and good cheer this festive season.
Happy holidays!

Merry Christmas

Tahmoor Coking Coal - current mine plan

Figure 1 highlights the location of Longwall S3A in yellow.

- The blue line (predicted 20mm Subsidence Area) indicates the area predicted to experience subsidence from LW S3A mining.
- The grey shading depicts the previously mined areas.
- The green and blue areas are the active subsidence zone where weekly inspections are carried out. Green being 450m behind the longwall face and blue being 150m in front of the longwall face.

Koala & Tasmanian Devil enclosure opening

Tahmoor Coking Coal is proud to have enabled the arrival of three Tasmanian Devils and two Koalas at the Australian Wildlife Sanctuary (AWS), after our sponsorship grant was used to build their new enclosures.

An official ceremony was held on Friday 27 November to welcome the recently arrived koalas and devils with Member for Wollondilly Judy Hannan, Wollondilly Shire Councillors and Tahmoor Coking Coal Executive General Manager, Peter Vale among those in attendance.

Peter said it was an honour for Tahmoor Coking Coal to be an ongoing sponsor of the sanctuary and this milestone event for these special native animals.

Tahmoor mine has been a long-term sponsor of the sanctuary with support over the past four years for many significant projects. We're thrilled to continue our great partnership with such a worthy organisation. The conservation and education work AWS do is truly remarkable and delivered with passion.

Tahmoor provided grants for the construction of the enclosures and an upcoming Koala Rehabilitation Centre as part of our \$115,000 sponsorship to the sanctuary.

The Koalas and Tasmanian Devils can be visited now via tour bookings at www.australianwildlifesanctuary.com.au.

Tahmoor Colliery Community Consultative Committee

The TCCCC provides a forum for open discussion between representatives of Tahmoor Coking Coal, the community, local council and other stakeholders on issues directly relating to the mine's operations, environmental performance and community relations.

The committee is independently chaired and meets four times a year. There are six local community members on the committee listed below who are available for you to contact should you have any questions or concerns.
